# NAEEM CARR

WEB / MOBILE DEVELOPER

## OBJECTIVE

Seeking to secure a challenging role as a mobile and/or web developer, where I can apply creativity, problem-solving skills, and gain experience in crafting user-friendly interfaces to enhance user experiences and achieve business objectives. In addition to utilizing any spare time available or given by the company for upskilling time to maintain my upmost value to the company.

## EXPERIENCE

### FREELANCE SOFTWARE ENGINEER

February 2025 – Current

While studying Islamic religious studies, I independently ventured into freelance development to evaluate and strengthen my skills in project management, sprint planning, and client engagement. This experience included managing billing, leading client meetings and presentations, and collaborating with freelance designers and backend developers throughout the development process.

**PROJECTS:**

Nova | Polished Lounge | Shafieks Carwash

### SOFTWARE ENGINEER @ BITCUBE

June 2024 – February 2025

Worked as a full time, versatile developer in a permanent role, focusing on projects with React.js, TypeScript, JavaScript, and Prisma. Collaborated with backend teams on API integrations such as SQL and connected CDN's and CMS's. Participated in stand-ups by reporting to the team, and learned new languages and technologies as needed.

**PROJECTS:**

Good Energy | Smarter Britain | Temporall

### SOFTWARE ENGINEER @ LIQUID THOUGHT

April 2022 – May 2024

Worked full-time in a permanent role focused on mobile app development. Contributed functional input using HTML, CSS, React.js with Next.js, React Native, Angular, Node.js, SASS, and JavaScript. Specialized in cross-platform and native development, collaborated with team members, developed HTML newsletter mailers, and reported to the Dev Manager/Team Lead.

**PROJECTS:**

Life Health Care | Pay@ | Taquanta | Talent Usage | Women In Payments
RushTush - iOS / Android
